Summary

Hi! I'm a junior frontend developer and have been in the industry for more than 5 years.

I have a keen eye for detail and most of my working life has been dedicated to creating stunning websites for clients.

Code

```javascript
function squareDigits(num) {

  let result = num
    .toString()
    .split('')
    .map(num => parseInt(num))
    .map(num => num * num)
    .join('');

  return parseInt(result);
}
```

Employment
